GOVINDHAMMA P

Full Stack Developer (React JS | Node JS | Express JS)

Chennai, India | 9943029268 | govindhamma22@gmail.com | github.com/govindhamma003 | Immediate Joiner

PROFESSIONAL SUMMARY

Full Stack Developer with 2 years of experience building and deploying production web applications using React JS, Node JS, Express JS, and MongoDB. Skilled in designing and securing REST APIs, building customer-facing storefronts and admin dashboards, and integrating AI/LLM APIs into web applications. Strong debugger who uses AI-assisted tools like Claude Code and GitHub Copilot to ship cleaner code faster.

TECHNICAL SKILLS

Frontend Development: React JS, Next JS, Redux, Redux Toolkit, HTML5, CSS3, Material UI, Tailwind CSS, Bootstrap

Backend Development: Node JS, Express JS, REST API Development, GraphQL, JWT Authentication, Role-Based Access Control (RBAC), API Security

Languages: JavaScript (ES6+), TypeScript

Databases: MongoDB, Mongoose, PostgreSQL, SQL Server, MySQL

AI & AI-Assisted Development: Claude Code, GitHub Copilot, LLM API Integration, Prompt Engineering, AI Chatbot Development

Tools & DevOps: Git, GitHub, Postman, Azure DevOps, CI/CD Pipeline, Vercel

PROFESSIONAL EXPERIENCE

Full Stack Developer — ***Geeo Technologies (France-based Startup)*** **Aug 2024 – Present**

- Built customer-facing storefronts and an admin dashboard for a multi-tenant e-commerce platform using React JS and Node JS.
- Implemented geofencing using latitude/longitude calculations and the Google Maps API to block deliveries outside service zones, reducing failed delivery attempts by 40%.
- Secured 10+ REST API routes with JWT authentication, RBAC middleware, and bCrypt password hashing; built complete customer authentication flows (login, forgot password, reset password) with JWT-based sessions.
- Developed the order management module with a 4-stage status workflow, enabling store owners to track and process orders in real time.
- Engineered a coupon and discount system supporting 3 discount types, with validation, expiry checks, and usage limits.
- Designed MongoDB schemas and Mongoose models for orders, coupons, and delivery zones, adding indexes to improve query performance on a 500+ record admin dashboard dataset.
- Created 7+ reusable UI components (item detail panel with add-ons, coupon slider, payment settings, product search) using React and Material UI, and managed global state with Redux across 10+ components.
- Integrated third-party services into the platform's Node JS backend through external API integrations.

PROJECTS

Hotel Room Booking System

React JS | *Node JS* | *Express JS* | *MongoDB* | *Material UI* | *Nodemailer* | *AI/LLM API*

Live Demo: govindhamma-hotel-booking.vercel.app | GitHub: github.com/govindhamma003/hotel-booking

- Built a full-stack hotel booking application with a 3-step booking flow (room selection, guest details, payment confirmation), backed by MongoDB Atlas and deployed live on Vercel.
- Integrated an AI chatbot powered by a free-tier LLM API that answers guest questions about rooms, amenities, pricing, and the booking process in natural language.
- Built a secure Express endpoint to proxy AI requests with the API key kept server-side, and used prompt engineering with hotel room data to keep responses accurate and on-topic.
- Developed the React and Material UI chat interface with conversation history, loading states, and graceful error handling.
- Automated booking confirmation emails to guest and admin using Nodemailer with EJS templates.
- Structured the backend with class-based controllers, Winston logging with UUID prefixing, and Object.freeze constants for clean, production-style code.

Book Management System

React JS | *Node JS* | *Express JS* | *MongoDB* | *Material UI*

GitHub: github.com/govindhamma003/book-management-system

- Developed REST APIs for complete book CRUD operations and a borrow/return workflow, exposing 6+ endpoints with MongoDB for data persistence.
- Implemented JWT cookie-based authentication with bCrypt password hashing and role-based access control (RBAC) for admin and user roles.

EDUCATION

B.Tech 2020 – 2024

Puducherry Technological University, Puducherry
